

MATERIALS FOR O FOUNTAIN

We recommend a three-step approach for the best result

Primer-Colour-Coating

We have worked with PPG as well as Haymes Paint. Below is an overview of the materials that have been used to date to create the artwork on an O fountain.

HAYMES PAINT

1. Haymes Ultra Cover Primer to seal the GRC (Glass Reinforced Concrete).
2. Create the artwork in Haymes Solashield Low Sheen.
3. When dry, apply 2 coats of Ultimate 2 pack Anti Graffiti coating.

PPG

4. Guardian AntiGraffiti primer <http://www.guardit.net/PDS/PRS/Primer.pdf>
5. Low-Sheen Endure Exterior
6. Low-Sheen Guardian Anti-Graffiti Coating Part A+B
