

GRANTS

for Drinking Water Stations

Explore Funding Opportunities to Upgrade Your Drinking Water Stations

Secure Funding for Your Outdoor Facility Upgrade

Upgrading an outdoor facility can be challenging, especially with limited funding. Many organisations end up compromising on quality or settling for essentials. However, securing a grant could be the solution to achieving your ideal facility without financial constraints.

Why Consider Grants

Grants provide excellent funding opportunities for various groups such as sports clubs, schools, and community organisations. Despite their benefits, many shy away due to the daunting application process. Here are some tips to make applying for grants easier:

Steps to Secure a Grant:

1 Find the Right Grant

- Identify grants that match your organisation's needs and objectives. Websites like Queensland Grants, NSW Grants, and Sport Victoria are great starting points.
- Sign up for newsletters to stay updated on grant openings.

2 Understand the Grant Requirements

- Thoroughly review the eligibility criteria, submission requirements, key dates, and required workshops
- Plan your project timeline accordingly to meet all deadlines and requirements.

3 Clarify Your Purpose

- Define the 'why' behind your project. Explain how the grant will benefit your organisation and the community.
- Align the project with your organisation's core values and mission.

4 Show Your Passion

- Craft your application with genuine enthusiasm and commitment to the community benefits of your project.
- Avoid generic responses; be creative and insightful.

5 Demonstrate Value and Sustainability

- Highlight how your project offers value for money and meets long-term community needs.
- Be realistic with your funding request and show prudent use of funds.

6 Gather Support

- Obtain letters of support from other community groups that will benefit from your project.
- Demonstrate that your proposal is well-considered and has broad backing.

7 Ensure Compliance

- Adhere strictly to the grant's submission guidelines and deadlines.
- Include all required documentation to avoid disqualification.

Following these steps will improve your organisation's chances of securing funding for an outdoor facility upgrade. Grants can transform your vision into reality without financial constraints.

Are you seeking to replace outdated water bubblers with modern, efficient drinking water stations? We have compiled a selection of grant opportunities that can assist you in securing the necessary funding. Please review the eligibility criteria for each grant before applying to ensure your organisation qualifies.

AUSTRALIA WIDE

CAPITAL GRANTS PROGRAM

About:

Provides funding to non-government schools to improve infrastructure, focusing on disadvantaged students.

Funding: varies on a case-by-case basis

Eligibility Criteria:

-  Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
-  Schools in receipt of recurrent funding under the Australian Education Act
-  Schools demonstrating financial need for the grant
-  Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Urban+ drinking water stations align with the CGP by upgrading water infrastructure, promoting health, reducing sugary drink consumption, and supporting eco-friendly goals. Made with high-quality stainless steel and custom art features, they enhance school amenities, ensure compliance with disability standards.

**Application
Information:**

Applications may be made at any time.

AUSTRALIA WIDE

EMILY WISH FOUNDATION

About:

Develop projects that meet the demand of future generations and global changes. Sustainable and future-forward projects are considered in this area

Funding: Up to 10,000

Eligibility Criteria:

-  Open to organisations across Australia.
-  Applications must align with one of the following categories:
-  Experimental Pilot Project
-  Growth and Redirection
-  Sustainability Injection
-  Urgent Needs
-  Other (for projects outside traditional categories).
-  Separate applications are required for multiple projects.
-  Funding is not typically awarded for research projects requiring substantial financial support.

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and long-term viability, and ensuring compliance with disability standards.

Application Information:

QUEENSLAND

INLAND RAIL COMMUNITY SPONSORSHIPS AND DONATIONS

About:

Supports short-term, community-driven projects that enhance prosperity, well-being, and sustainability.

Funding: up to \$4,000

Eligibility Criteria:

-  Not-for-profit organisations, local government bodies, Aboriginal Land Councils, and Traditional Owner Groups in the alignment area.
-  School Projects focusing on STEM education.
-  Projects must be located in specified local government areas along the Inland Rail route.
-  Organisations must have a current ABN and legal entity status.
-  Projects focused on community wellbeing, prosperity, sustainability, and align with Inland Rail's core values.

How URBAN+ Applies:

Urban+ drinking water stations align with STEM curriculum goals by integrating environmental goals, promoting health, and contributing to school infrastructure. They provide practical learning opportunities while supporting wellness.

Application Information: [*Inland Rail Community Sponsorships and Donations*](#)

Round 4: 1 November to 31 January 2025

LORD MAYOR'S COMMUNITY FUND

About:

Supports community projects that strengthen Brisbane and align with the Brisbane Vision 2031 themes.

Funding: Up to \$10,000

Eligibility Criteria:

- ✔ Applicants must be eligible community organisations (e.g., not-for-profit entities, Parents and Citizens Associations).
- ✔ Projects must be for a community purpose and benefit the local community.
- ✔ Projects must align with one or more LMCF priorities, such as:
 - ✔ Improving community facilities.
 - ✔ Supporting community health and wellbeing.
 - ✔ Enhancing environmental sustainability.
 - ✔ Supporting community activities in recreation and sport.
- ✔ Projects must be implemented within 12 months of approval.
- ✔ Projects must be undertaken within the relevant Ward boundary in Brisbane.
- ✔ Schools can apply through their Parents and Citizens Association (P&C).

How URBAN+ Applies:

Urban+ drinking water stations align with LMCF priorities by improving community facilities, promoting health, and supporting green initiatives. The stations encourage hydration, reduce plastic waste, and enhance school amenities, fostering stronger, healthier communities in Brisbane.

**Application
Information:**

[Lord Mayor's Community Fund](#)

Closing Date: 13 June 2025

✓ QUEENSLAND

MAYOR AND COUNCILLORS' COMMUNITY BENEFIT FUND

About:

Provides grants up to \$3,000 to not-for-profit organisations for small community projects, with increased funding for initiatives benefiting multiple council divisions.

Funding: Up to \$3,000

Eligibility Criteria:

- ✓ Not-for-profit incorporated associations
- ✓ Parents and Citizens (P&C) Associations, if the project demonstrates significant community benefit beyond the school
- ✓ School based projects must be undertaken in conjunction with other community based organisations.
- ✓ Projects must benefit the Redland City Council area
- ✓ Applicants must have no overdue acquittals for previous Council-funded grants

How URBAN+ Applies:

Urban+ drinking water stations align with the Mayor and Councillors' Community Benefit Fund by enhancing community facilities, promoting health, reducing plastic waste, and supporting environmental stewardship, while fostering stronger, healthier communities.

Application Information: [Mayor and Councillors' Community Benefit Fund](#)

Open Date: 10 June 2024

Close Date: 31 May 2025 (or earlier if funds are fully expended)

✓ QUEENSLAND

SUSTAINABILITY FUNDING

About:

Supports Queensland state schools in embedding sustainability in their facilities and curriculum, saving resources and money.

Funding: – Allocation Based on Assessment

Eligibility Criteria:

- ✓ All Queensland state schools
- ✓ Special schools
- ✓ Environmental and outdoor education centres

How URBAN+ Applies:

Drinking water stations are an excellent fit for this grant as they promote sustainability by providing efficient water usage solutions, reducing single-use plastic waste, and incorporating educational elements on water conservation. These stations help schools save resources and money while embedding eco-friendly practices.

 **Application Information:** [Sustainability Funding](#)

Applications Due: February annually

Payment Timing: Annually Term 1- March/April

Adhoc payments for adjustments/new schools: In line with the monthly payment schedule

✓ NEW SOUTH WALES

CAPITAL GRANTS PROGRAM

About:

Provides funding to non-government schools to improve infrastructure, focusing on disadvantaged students.

Funding: varies on a case-by-case basis

Eligibility Criteria:

- ✓ Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
- ✓ Schools in receipt of recurrent funding under the Australian Education Act
- ✓ Schools demonstrating financial need for the grant
- ✓ Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Urban+ drinking water stations align with the CGP criteria by upgrading water infrastructure, promoting health, reducing sugary drink consumption, and supporting future-proofing goals. Made in Australia with high-quality stainless steel and custom features, they enhance infrastructure, meet disability standards, and contribute to better academic outcomes.

**Application
Information:**

[Capital Grants Program](#)

Applications may be made at any time.

NEW SOUTH WALES

INLAND RAIL COMMUNITY SPONSORSHIPS AND DONATIONS

About:

Supports short-term, community-driven projects that boost prosperity, well-being, and sustainability.

Funding: Up to \$4,000

Eligibility Criteria:

-  Not-for-profit organisations, local government bodies, Aboriginal Land Councils, and Traditional Owner Groups in the alignment area.
-  School Projects focusing on STEM education.
-  Projects must be located in specified local government areas along the Inland Rail route.
-  Organisations must have a current ABN and legal entity status.
-  Projects focused on community wellbeing, prosperity, sustainability, and align with Inland Rail's core values.

How URBAN+ Applies:

Urban+ drinking water stations support STEM-focused projects by integrating environmental well-being into the curriculum, enhancing infrastructure, promoting health, and reducing plastic waste.

**Application
Information:**

Sponsorships and Donations*](#)

Round 4: 1 November to 31 January 2025

✓ NEW SOUTH WALES

COMMUNITY SUPPORT GRANT PROGRAM

About:

Provides for community organisations to enhance facilities, improve accessibility, and promote well-being in the Central Coast region.

Funding: \$5,000

Eligibility Criteria:

- ✓ Legally constituted not-for-profit organisations or those auspiced by such an organisation
- ✓ Must operate within the Central Coast area or demonstrate that the project benefits Central Coast residents
- ✓ Must meet the grant program eligibility criteria and address one or more of the expected program outcomes
- ✓ Only one application per project per financial year can be funded across any of Council's grant programs

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and resilient solutions, and ensuring compliance with disability standards.

Application Information:

[Community Support Grant Program](#)

Close Date: Each assessment period is the last day of each month

Open Date: Applications are open year-round

NEW SOUTH WALES

GRAINCORP GRANTS

About:

Supports communities by funding organisations and projects that foster development, renewal, and growth.

Funding: Up to \$20,000 [Rural and Regional Australia]

Eligibility Criteria:

-  Applications must be for a sporting club or community event located within an area where GrainCorp operates or region linked to grain growing activities;
-  Applications must contain activation plans that recognise GrainCorp's support
-  Where possible, applications may provide engagement opportunities for GrainCorp employees
-  Applications must align with at least one of GrainCorp's Community Foundation Pillars

How URBAN+ Applies:

Urban+ drinking water stations support community renewal, promote health, reduce plastic waste, and align with grant objectives.

Application Information:

[GrainCorp Grants](#)

1 – 28 February 2025

1 – 31 July 2025

✓ NEW SOUTH WALES

COMMUNITY BUILDING PARTNERSHIP

About:

Supports infrastructure projects that foster social, environmental, and recreational benefits while encouraging community inclusion.

Funding:

Eligibility Criteria:

- ✓ To be considered eligible, the project must be submitted through the online system SmartyGrants.
- ✓ NSW association or non-distributing co-operatives registered with NSW Fair Trading
- ✓ Local Aboriginal Land Councils or Indigenous corporations registered with the Office of the Registrar of Indigenous Corporations
- ✓ NSW local councils and their Section 355 committees operating under the Local Government Act 1993. Local councils or their Section 355 committees are required to provide matched funding to the CBP grant amount awarded.
- ✓ Not-for-profit entities incorporated under an Act of Parliament
- ✓ Trusts that are registered with the Australian Charities and Not-for-profits Commission
- ✓ Public companies limited by guarantee.
- ✓ Applicants that received a grant through the CBP 2021 and CBP 2022 rounds must have acquitted their CBP 2021 and CBP 2022 projects by 21 February 2025, unless they have an active and approved extension in place to complete the project.
- ✓ Organisations listed on the ACNC Register must have a current and up-to-date record. Any organisation that has not met ongoing obligations to the ACNC will have funding withheld if the project is successful. Any outstanding issues must be resolved by the date Funding Agreements are due, or the grant offer may be withdrawn.
- ✓ An organisation eligible to apply for funding must apply under its own legal name and ABN.

How URBAN+ Applies:

Urban+ drinking water stations enhance public spaces with durable, inclusive infrastructure that promotes hydration, sustainability, and accessibility.

Application Information:

[Community Building Partnership](#)

Open: 28 January

Close: 21 February 5pm

CAPITAL GRANTS PROGRAM

About:

The Capital Grants Program (CGP) funds non-government schools to enhance capital infrastructure, prioritising support for the most disadvantaged students.

Funding: up to \$200,000

Eligibility Criteria:

- ✔ Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
- ✔ Schools in receipt of recurrent funding under the Australian Education Act
- ✔ Schools demonstrating financial need for the grant
- ✔ Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Installing Urban+ drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and ensuring compliance with disability standards. These high-quality, stainless steel stations reduce sugary drink consumption, support active lifestyles, and help schools meet their eco-responsibility goals, enhancing the overall school environment.

**Application
Information:**

[Capital Grants Program](#)

Applications may be made at any time.

DISABILITY ACCESS AND INCLUSION GRANT

About:

The Disability Access and Inclusion Grant funds projects, activities, and equipment to promote equitable access and participation for people with disabilities in community and sporting activities, aligning with the City's Disability Access and Inclusion Plan.

Funding: up to \$10,000

Eligibility Criteria:

- ✓ Incorporated community organisations
- ✓ Community Groups/not-for-profit organisations
- ✓ Sporting clubs
- ✓ Schools
- ✓ Must operate within the City of Canning

How URBAN+ Applies:

The installation of Civiq drinking water stations meets the guidelines by providing accessible hydration infrastructure that supports the inclusion of people with disabilities. These stations are designed to be easily accessible, promoting health and hydration while ensuring that individuals with disabilities can equally benefit from the facilities, fostering a more inclusive community environment.

**Application
Information:**

[**Disability Access and Inclusion Grant**](#)

Round Two – closes 4 March 2025

COMMUNITY SPORTING AND RECREATION FACILITIES FUND

About:

The Disability Access and Inclusion Grant funds projects, activities, and equipment to promote equitable access and participation for people with disabilities in community and sporting activities, aligning with the City's Disability Access and Inclusion Plan.

Funding: Up to \$200,000

Eligibility Criteria:

- ✓ Local governments
- ✓ Not-for-profit sport, recreation, or community organisations incorporated under the WA Associations Incorporation Act 2015
- ✓ Must have an Australian Business Number (ABN)
- ✓ Clubs must demonstrate equitable access to the public on a short-term and casual basis
- ✓ Matching fund required: Yes.

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and sustainability, and ensuring compliance with disability standards.

Application Information:

[Community Sporting and Recreation
Facilities Fund](#)

Open Date: July 2024

CAPITAL GRANTS PROGRAM

About:

Supports funding for non-government primary and secondary schools to improve infrastructure, focusing on educationally disadvantaged students.

Funding: Varies on a case-by-case basis

Eligibility Criteria:

- ✔ Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
- ✔ Schools in receipt of recurrent funding under the Australian Education Act
- ✔ Schools demonstrating financial need for the grant
- ✔ Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Installing drinking water stations meets the CGP's capital expenditure criteria by upgrading water services infrastructure. These stations promote health and encourage healthy lifestyles, reduce sugary drink consumption. The use of high-quality, Australian-made stainless steel products and custom art features further enhances the infrastructure, ensures compliance with disability standards, and supports positive academic outcomes.

 **Application Information:** [Capital Grants Program](#)

Applications may be made at any time.

INLAND RAIL COMMUNITY SPONSORSHIPS AND DONATIONS

About:

Supports short-term community projects that improve prosperity, wellbeing, sustainability, and facilities.

Funding: Up to \$4,000

Eligibility Criteria:

- ✔ Not-for-profit organisations, local government bodies, Aboriginal Land Councils, and Traditional Owner Groups in the alignment area.
- ✔ School Projects focusing on STEM education.
- ✔ Projects must be located in specified local government areas along the Inland Rail route.
- ✔ Organisations must have a current ABN and legal entity status.
- ✔ Projects focused on community wellbeing, prosperity, sustainability, and align with Inland Rail's core values.

How URBAN+ Applies:

Urban+ drinking water stations fit as a capital expenditure to improve water services infrastructure, promoting health, environmental commitment, and compliance with disability standards.

**Application
Information:**

[***Inland Rail Community
Sponsorships and Donations***](#)

Round 3: 1 August to 31 October 2024

Round 4: 1 November to 31 January 2025

VICTORIA

BUILDING FUND FOR NON-GOVERNMENT SCHOOLS

About:

Supports low-fee non-government schools in Victoria to improve facilities, enhancing student outcomes, engagement, sustainability, and inclusivity.

Funding: up to \$2.4 million

Eligibility Criteria:

-  Low-fee non-government schools with income per student of \$8,125/year or less (2023 indexed).
-  Schools registered with the Victorian Registration and Qualifications Authority (VRQA).
-  Evidence of financial need and inability to fully self-fund the project.
-  Projects must commence within 12 months and complete within 12 months (for upgrades).

How URBAN+ Applies:

Urban+ drinking water stations align with the grant's goals by upgrading school facilities, promoting health, ecological balance, and inclusivity. They encourage hydration, reduce sugary drink consumption, support environmental goals by reducing plastic waste, and enhance accessibility for all students while ensuring compliance with disability standards.

Application Information:

[**Building Fund for Non-Government Schools**](#)

Close Date: 3 February 2025

COMMUNITY STRENGTHENING GRANTS

About:

Provides up to \$5,000 for community projects in Moira Shire that enhance inclusion, health, sustainability, and well-being.

Funding: up to \$5,000

Eligibility Criteria:

- ✔ Incorporated 'not-for-profit' community organisations with open membership to residents of Moira Shire
- ✔ Must have an Australian Business Number (ABN) or be auspiced by an organisation with an ABN
- ✔ Projects must directly benefit residents in Moira Shire or demonstrate significant community impact
- ✔ Must hold adequate public liability insurance to cover the project or event
- ✔ Must comply with all relevant local laws and regulations
- ✔ If you are a school: You must partner with an eligible community organisation to apply

How URBAN+ Applies:

Drinking water stations align with the Quick Response Grants by supporting Moira Shire's goals of community health and eco-efficient solutions. Urban+ drinking water stations promote hydration, reduce sugary drink consumption, and minimise single-use plastic waste, aligning with public health. Partnering with an eligible community organisation can position the project as an infrastructure improvement, while Urban+ ensures high-quality, sustainable solutions that comply with the standards.

Application Information:

[Community Strengthening Grants](#)

Close Date: Applications accepted until funds are fully allocated or the round is closed

Open Date: Ongoing

CAPITAL GRANTS PROGRAM

About:

The Capital Grants Program (CGP) provides funding to non-government primary and secondary schools to improve infrastructure, with a focus on supporting the most educationally disadvantaged students.

Funding: Varies on a case-by-case basis

Eligibility Criteria:

-  Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
-  Schools in receipt of recurrent funding under the Australian Education Act
-  Schools demonstrating financial need for the grant
-  Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health, eco-friendly development and ensuring compliance with the standards.

Application Information: [Capital Grants Program](#)

Applications may be made at any time.

SOUTH AUSTRALIA

COMMUNITY GRANTS

About:

The Whyalla City Council Community Grants Program provides funding to not-for-profit groups and organisations for projects that enhance the community in areas such as sports, recreation, culture, and infrastructure.

Funding: Up to \$5,000

Eligibility Criteria:

-  Not-for-profit community groups or organisations.
-  Incorporated entities or groups auspiced by one.
-  Must reside in Whyalla or demonstrate significant benefit to the Whyalla community.
-  Hold a current South Australian bank account.
-  Must have acquitted any previous grants from the Council.

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and sustainability, and ensuring compliance with disability standards.

Application Information: [Community Grants](#)

Applications close on the 15th of January, March, May, July, September, and November.

Assessment: Applications are reviewed in the following month's Council meeting.

CITY OF SALISBURY SUSTAINABILITY COMMUNITY GRANTS

About:

The City of Salisbury Sustainability Community Grants Program supports clubs, groups, organisations, and residents in projects that align with the Council's sustainability goals. The program focuses on community involvement in environmental care, promoting a circular economy, reducing waste, and enhancing climate resilience.

Funding: up to \$7,000

Eligibility Criteria:

- ✓ Community Groups
- ✓ Sporting Clubs
- ✓ Not-for-Profit Organizations may include schools
- ✓ Businesses

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and sustainable innovation, and ensuring compliance with disability standards.

Application Information:

[City of Salisbury Sustainability Community Grants](#)

Applications open: Year-round

Applications assessed: Monthly by the Community Wellbeing and Sport Committee

CAPITAL GRANTS PROGRAM

About:

The Capital Grants Program (CGP) provides funding to non-government primary and secondary schools to improve infrastructure, with a focus on supporting the most educationally disadvantaged students.

Funding: Varies on a case-by-case basis

Eligibility Criteria:

-  Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
-  Schools in receipt of recurrent funding under the Australian Education Act
-  Schools demonstrating financial need for the grant
-  Schools with appropriate maintenance plans and compliance with relevant laws and standards

NORTHERN TERRITORY

LONG DAY CARE UPGRADE GRANT

About:

Provides financial assistance for building and ground upgrades to the following regulated community-based and not-for-profit services

Funding:

Eligibility Criteria:

-  The Department of Education and Training will write to all eligible service providers and invite them to apply for the annual grant.
-  Applications must demonstrate a willingness to contribute financially towards the cost of the proposed building and ground upgrades.
-  Long day care
-  3-year-old kindergarten.

How URBAN+ Applies:

Installing drinking water stations can enhance water access, promoting health and sustainability. These stations improve infrastructure in community-based and not-for-profit childcare services, fostering a healthier and more inclusive environment.

**Application
Information:**

[*Long Day Care Upgrade Grant*](#)

NORTHERN TERRITORY

MULTICULTURAL COMMUNITY FACILITIES GRANT

About:

Helps with funding for renovations, maintenance and upgrades to your facilities. The grant programs demonstrate the Government's commitment to assist multicultural communities to expand their own, and the Territory's social and cultural development

Funding: Varies on a case-by-case basis

Eligibility Criteria:

-  Be based in the Northern Territory
-  You must own and manage multicultural community facilities in the Northern Territory (NT).
-  Have no overdue final reports or outstanding financial acquittals from previous NT Government-funded grants by the closing date of each application round
-  Comply with requirements under the relevant governing legislation, such as the Associations Act 2003 (NT), the Corporations Act 2001 (Cth), the Australian Charities and Not-for-profits Commission (ACNC), or the Office of the Registrar of Indigenous Corporations (ORIC).

How URBAN+ Applies:

Installing drinking water stations supports facility upgrades by enhancing water access, promoting responsible resources, and ensuring inclusivity. These stations contribute to the well-being of multicultural communities, fostering social connections in upgraded, accessible spaces while aligning with the Territory's social and cultural goals.

Application Information:

[*Multicultural Community Facilities Grant*](#)

Applications open from 1 April to 30 April every year.

CAPITAL GRANTS PROGRAM

About:

The Capital Grants Program (CGP) provides funding to non-government primary and secondary schools to improve infrastructure, with a focus on supporting the most educationally disadvantaged students.

Funding: Varies on a case-by-case basis

Eligibility Criteria:

-  Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
-  Schools in receipt of recurrent funding under the Australian Education Act
-  Schools demonstrating financial need for the grant
-  Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and sustainability, and ensuring compliance with disability standards.

Application Information: [Capital Grants Program](#)

Applications may be made at any time.

COMMUNITY ACTION GRANTS

About:

The 2024 Community Action Grants by the Tasmanian Community Fund support not-for-profits in projects that enhance community well-being, improve learning access, and develop essential infrastructure, focusing on innovative, collaborative, and cost-effective solutions.

Funding: Up to \$50,000

Eligibility Criteria:

- ✓ Not-for-profit organizations or projects sponsored by one.
- ✓ Projects must be based in or benefit communities in Tasmania.
- ✓ Must contribute at least 10% cash toward project costs.
- ✓ Projects must address one of the identified funding streams, such as infrastructure, youth engagement, or community capacity building.
- ✓ The project must align with the Fund's objectives and demonstrate broad community support.

How URBAN+ Applies:

Urban+ drinking water stations support the Fund's goals by promoting healthy lifestyles, reducing plastic waste, and enhancing long-term ecological health. These stations improve learning environment, fostering focus and well-being while meeting capital expenditure criteria for accessible, sustainable infrastructure.

**Application
Information:**

[Community Action Grants](#)

Open Date: 1 January 2024

Close Date: 31 December 2024

ACTIVE CLUBS PROGRAM 2024-25

About:

Provides funding to increase opportunities for participation in sport and active recreation in Tasmania, and to assist the ongoing development of Tasmania's sport and recreation sector.

Funding: Up to \$1.16 million

Eligibility Criteria:

- ✓ Playing and or/training equipment
- ✓ Coaching and/or officiating equipment
- ✓ Safety, health and/or protective equipment
- ✓ Uniforms and/or protective gear directly associated with participation
- ✓ Information technology equipment directly associated with participation
- ✓ Watercraft and related equipment
- ✓ Playing venue maintenance equipment

How URBAN+ Applies:

Installing drinking water stations supports active lifestyles by enhancing sports facilities, promoting hydration, and improving accessibility for all participants.

Application Information:

[Active Clubs Program 2024-25](#)

Applications open: no later than 3 February 2025

Applications close: at 2:00pm on 5 March 2025.

Only one application can be submitted per eligible organisation.

TASMANIA

TASMANIAN ACTIVE INFRASTRUCTURE GRANTS PROGRAM

About:

Provides funding to develop and upgrade sport and active recreation infrastructure in Tasmania, aiming to increase opportunities for all Tasmanians, regardless of age or background, to get active and have access to quality recreational spaces.

Funding: Up to \$25,000 - \$500,000

Eligibility Criteria:

-  The program is open to sport and active recreation organisations and Local Government Associations that are:
-  Incorporated, not-for-profit organisations
-  Local government authorities (councils), or
-  Not-for-profit organisations registered under company law.

How URBAN+ Applies:

Urban+ drinking water stations enhance sport and recreation infrastructure by providing accessible hydration, promoting health, and supporting sustainability in recreational spaces.

Application Information: [Tasmanian Active Infrastructure Grants Program](#)

The program opens on 24 February 2025.

AUSTRALIAN CAPITAL TERRITORY

CAPITAL GRANTS PROGRAM

About:

The Capital Grants Program (CGP) provides funding to non-government primary and secondary schools to improve infrastructure, with a focus on supporting the most educationally disadvantaged students.

Funding: Varies on a case-by-case basis

Eligibility Criteria:

-  Non-government schools that are members or prospective members of a Block Grant Authority (BGA)
-  Schools in receipt of recurrent funding under the Australian Education Act
-  Schools demonstrating financial need for the grant
-  Schools with appropriate maintenance plans and compliance with relevant laws and standards

How URBAN+ Applies:

Installing drinking water stations fits as a capital expenditure to improve water services infrastructure, promoting health and eco-positive impact and ensuring compliance with disability standards.

 **Application Information:** [Capital Grants Program](#)

Applications may be made at any time.
