

# Shower: SS150

Our SS150 stainless steel showers would compliment any Australian beachfront, public swimming facility or private resort. We use only 445 and 316 stainless steel sheeting that will withstand the harshest coastal climate and prevent corrosion. The stainless steel can also be powder coated in a variety of colours to blend with or enhance the surrounding environment. All activator buttons are on set timings to prevent water wastage.

- Dimensions**
- Height: 2200mm
  - Width 162mm
